LETTER OF RECOMMENDATION

I highly recommend Mr. Abhishek Reddy Kavali for an admission into the Master's program in your esteemed University. In the capacity of Professor, I have known him since two years as his course instructor for the training on "Python & C programming languages". He is an outstanding student who has shown his ability to complete challenging assignments and projects independently where I presented him a C Programming book as an appraisal.

The first impressions that anyone forms of Mr. Abhishek Reddy Kavali are that of a person with outstanding technical knowledge and problem-solving skills. Assignments submitted by him demonstrated his out of the box thinking and dedication towards the subject. His academic record shows that he has been able to successfully manage time and resources to meet deadlines while maintaining excellent grades.

The academic projects of Mr. Abhishek Reddy Kavali always stood out. Right from the first year of B.Tech. he exhibited commendable talent by developing APP, building websites for various events of the college and other reputed organizations. He has kept himself update with latest developments in his field by attending workshops and symposia. He is an enthusiastic learner, who upgrades his skills all the time. Besides the academics he had many certifications with Coursera like "Technical Support Fundamentals, Introduction to cyber security tools and Cyber-attacks and Red Hat System Administration".

Mr. Abhishek Reddy Kavali demonstrated the qualities of a leader and team player by motivating and inspiring others as the student Coordinator in various clubs and events. Creativity, individuality and hard work have been the personality that has always made him to out shine. I consider him an ideal candidate for an MS program in your university without any doubt. I strongly recommend his candidature for this program, so that he will get an opportunity to improve his skills. I wish him all the very best for his future endeavors.

Best Regards,

Dr. Mahaboob Basha Shaik

Professor
