LETTER OF RECOMMENDATION

It a pleasurable moment for me to write the letter of recommendation for Mr. Abhishek Reddy Kavali, who is eager to pursue MS Program in your esteemed university. The first impression that one forms of him is that, he is a person endowed with technical soundness and intelligence to put it to optimum use. In the capacity of Professor in Computer Science and Engineering, I taught him "Computer Networks". During my three years of acquaintance with him, the notable quality that has thoroughly impressed me is his sharp thinking.

Mr. Abhishek Reddy Kavali combines intelligence with imagination and this consequently makes him good in all things practical. He is attributed with qualities like dedication and hard work. He has been an eager and keen student in grasping anything new in his field of interest. Regularly updating the skills in the latest developments is his passion. This he has achieved through active participation in the symposia conducted by our College and in the workshops of various reputed organizations and universities.

Apart from academics Mr. Abhishek Reddy Kavali has shown a keen interest in Cyber Security, he attended "System Administration with Red Hat" an Internship Program. Along with this he also used his skills in building real-time websites for our college events which are one his finest works & also attended many symposiums & workshops. His keen interest in Computer Science and programming ability helped him to get placed in 2 companies such as L&T Technology Services & Invensis Technology Pvt. Ltd. His commendable presentation and communication skills are noteworthy.

Mr. Abhishek Reddy Kavali has an excellent etiquette that has made him popular among his student friends and also been endeared equally well to the faculty. Undoubtedly, he is a source of inspiration for his peers. Vouching his credentials, in a holistic way, I would rate him in the top 10% students of his class. I strongly recommend him for admission to the Master's program in your renowned University.

Best Regards,

Dr. Sreedevi M Professor and HOD
