LETTER OF RECOMMENDATION

I am delighted to write this letter of recommendation for Mr. Abhishek Reddy Kavali as an outstanding candidate for admission to the Master's program in your renowned University. In the capacity of Professor and the Head of the Department in Computer Science and Engineering. He is a highly motivated and sincere student, who has actively capitalized on every opportunity our college had to offer.

Mr. Abhishek Reddy Kavali is an extremely quick learner and is technically very sound. With pride, I endorse that he was selected as a participant (1 out of 5 from the college) for "Mobile Developers Fest" organized by Google during his 3th semester & attended "Game Development Challenge(IGDC-2018") conducted by KAMK University Finland & attended "System Administration Internship program" as he was interested in Cyber Security field & other symposiums/workshops. He completed many Academic Projects on building Websites & built Real-Time websites for our college events successfully. He has the capability to complete assigned tasks with minimum guidance that makes him intellectually independent. His creative thinking ability and collaborative nature made him a favorite among students and professors. His communicative and presentation skills are commendable.

Additionally, I have noticed that **Mr. Abhishek Reddy Kavali** has always excelled not only in his academic interests but also in his extracurricular activities. He has always been very active in the institution Student Clubs (ED-Cell, MSR Club). He even served as a Student Coordinator in our College Fest (Ashv, GMoocs). I would like to highlight his public speaking abilities, as he has led many student interactive workshops at our institute.

Overall, **Mr. Abhishek Reddy Kavali** has a very strong sense of teamwork, with an undeniable passion for the field of his interest. He has demonstrated great skills and proved himself to be a valuable student of our department, time and again. I am positive that **Mr. Abhishek Reddy Kavali** will prove to be an asset to your university he is a part of, and complete the course successfully. Thus, I strongly recommend him for Master's Program in your esteemed university and wish him the best in the same.

Best Regards,
